

SHIELD INNER CABIN

SHELTER ACCESSORY

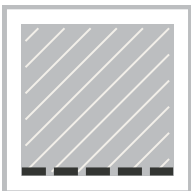

DESCRIPTION

The Inner Cabin is an interior tent accessory.

The cabin is a closed off space and can be accessed through a zipper door. Various configurations are available for the SHIELD XT and SHIELD LT tents.

For non-medical applications the cabin is made of a single layer breathable poly-cotton or a quilted material. Anti-condensation, anti-microbial, thermal protection, and flame retardant properties.

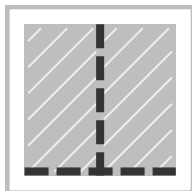

For medical applications, the cabin is made of a fire retardant PE according to the CPAI 84-section 6 standard. It is easy to clean and disinfect.
