

SHIELD QUILT LINER

SHELTER ACCESSORY

DESCRIPTION

The Quilt Liner is an interior tent and connector accessory, designed to improve the comfort and insulation of the tent.

The liner is made of breathable inherent FR PES, with an additional insulating polyester polyfill layer. This has anti-condensation, anti-microbial, thermal protection, and flame retardant properties.

With inner liners installed, an uninterrupted transition between tent connections can be created, while tent doors are still functional to prevent the entry of insects and maintain the interior climate. Vestibule upon request.

COLOUR AND MATERIALS

COLOUR	MATERIAL	FILLING	GSM
Natural White 	Inherent FR PES	100% polyester polyfill	500
